

Pope Assails Totalitarian Countries

Caserta, Italy, Nov. 14 (AP)—Pope Pius XII bitterly assailed anti-Christian totalitarian states today, accusing such nations of suppressing true justice by application of unjust laws.

The pontiff laid suppression of human rights in totalitarian states to "prophets, defenders and creators of a culture, power of the state and a legislation which does not recognize God and his sovereign rights."

The pope, in an address to the Sacred Roman Rota — the Supreme Court of Catholicism — bitterly assailed recent trials in such states. He did not mention communist states by that name, but there was little doubt those were the ones he meant. Nor did he say which trials he referred to.

However, mentioning trials of public officials, indicating he might have been referring to the recent upsurge of "Trotsky" trials in the states of the Soviet orbit.

These states, the pope said, cannot return to "moral order" without first restoring Christian principles of law. He said the suppression of rights in these states was an "error of juridical position," which he defined as "absolute state laws" opposed to Christian principles.

"Absolute law of the state is equal to definition of the state itself," the pope said.

He said the pope's second important address of legal matters within a week last week in a speech to Italian Catholic lawyers, the pope cautioned Catholic judges everywhere not to recognize "unjust laws" and to beware of granting civil liberties to marriages which are "valid before God and the church."

It was China's first visit since the capital was re-established here on Oct. 15. Problems involving the whole future of nationalist China confronted the government.

Among problems: (1) some means of preventing the communists from completely engulfing nationalist areas on the mainland and (2) effecting a compromise with other nationalist leaders, notably Chiang Kai-shek, to enable full united resistance to the Reds.

Another capital must be chosen in the event Chiang becomes untenable. The city was China's capital during World War II.

A small group of nationalists greeted Chiang upon his arrival by plane from Formosa, where he has his headquarters.

Adding to the excitement was the news that the Chinese still is in Kweiin in Kwangsi province, but is expected here in a day or two.

Rt. Rev. Manning Reported Seriously Ill

New York, Nov. 14 (AP)—The Rt. Rev. William T. Manning, 83-year-old retired Episcopal Bishop of New York, was reported seriously ill today at a New York hospital.

Physicians said later that the bishop was in a "critical state," but improved after being kept quiet for several days.

Bishop Manning was "apparently not responding to medication," doctors said last night. They have not made public the nature of his illness.

The retired bishop has been a patient at the hospital since Nov. 1. He returned from a vacation in Maine Nov. 1 and entered the hospital for a periodic physical check-up.

\$8.13 for State Welfare Program Arkansians Pay

Washington, Nov. 14 (AP)—If you are a poor Arkansian, welfare payments last year cost you \$8.13 for every \$100 of income.

Broken down by type, the cost was \$4.00 for the state, \$2.00 for the federal government, and \$2.13 for the local government.

These figures were contained in a report prepared for congress by a joint economic committee.

The CAMEO

By Virginia Teale Copyright, 1949, NEA SERVICE, INC.

The Story: Martin Falter has been murdered and the motive seems to be a valuable carnelian cameo which he was trying to sell and which Nell O'Neill claimed to own. Hagar Blair, who runs a gift shop, and who wants the cameo, finds the murdered man immediately afterwards. Stephanie Smith, Hagar's assistant, appears on the scene. They do not report the crime to police but go home. There in Hagar's collection is the missing cameo! As Hagar and Stephanie talk, Arnold Pfeiffer is eavesdropping outside their window. Hagar already has told Stephanie that she thinks Arnold, who had been commissioned by Falter to sell the cameo, put the missing cameo in the collection cabinet.

Listening outside the window, Arnold Pfeiffer heard Hagar Blair speak.

"Well, Arnold's a timid little mouse. You saw how he jugged the pin like a hot potato when he brought it to the shop. Obviously he was panicking to get rid of it. He may have dropped the empty box in my car as a kind of signal. I didn't tell you about the box — I thought it would upset you. I found it just before I went to Martin Falter's."

"But why would Arnold leave the cameo here?" Stephanie Smith asked.

"Maybe he took it back to Falter and found him murdered. Or, maybe he found him murdered and took it up there and they had words and Arnold stabbed him."

Arnold's scalp crawled. The old bag of bones, he thought furiously, if she went to go to the police with an idea like that!

Then he closed his mouth abruptly. Someone was coming up Hagar Blair's pathway.

Arnold saw Hagar leave the bedroom while the doorbell sounded. He left the window and moved cautiously to the front of the house. The outside light flicked on and the caller's identity was revealed: Andrew Yakov!

"My apologies for this late call," Yakov said to Hagar. "It is something I must discuss with you. It is important."

Arnold crouched in the shadows wondering how he could hear what went on between Yakov and Hagar. He permitted himself to utter a mild oath when he realized that he was shut out completely.

He crept away from Hagar Blair's house, reached the sidewalk, and with quick, cat-like steps, struck off for town.

Yakov settled himself on Hagar's tropical divan. He offered one of his long, fragrant cigars, which she refused.

"Exciting events take place in even the quietest of small American towns, do they not?"

"What exciting events are you talking about?"

"Surely even you cannot be so biased as to consider a murder unexciting!"

"A murder?"

"Ah, Miss Blair," Yakov waved a hand in protest. "You looked upon the body of our poor friend, did you not? When his blood was almost fresh, perhaps."

Hagar's flesh crawled visibly. He leaned back. "Let us be honest with one another. You were there looking for the cameo, were you not?"

"So what! What were you looking for, Trotskyites?"

Yakov's smile disappeared. He

Prince Charles Observes First Birthday

London, Nov. 14 (UP)—Prince Charles, who some day may be king of Britain, celebrated his first birthday today with a gala party for his playmates around a rum-soaked 40-pound birthday cake.

The infant son of Princess Elizabeth and the Duke of Edinburgh was to be given a chance to blow out a big orange candle atop the cake, but probably will not be permitted as much as a bite of the cake itself.

That's because, as one source put it, the cake is as full of rum as a sailor on shore leave. Brandy is the usual spirit chosen to flavor such cakes, but rum — the traditional royal navy drink — was chosen in deference to the prince's father, now serving aboard a destroyer at Malta.

Prince Charles Philip Arthur George played host in his nursery at Clarence house, the home of his parents, only a few hundred yards from Buckingham palace. He is second only to his mother in line of succession to the British throne.

Princess Elizabeth was on hand to assist her son in receiving his guests. Also lending a helping hand were his two nurses, a detective and a young footman. Other members of the royal family also dropped in.

The guest list included: Princesses Richard, 5, and William, 8, his cousins and the sons of the Duke of Gloucester; Prince Michael of Kent, 7, another cousin; and three little girls: Elizabeth Zia, Butler, 18 months old and Rosemary Elizabeth Elphinstone, 2. Princess Elizabeth's godchildren, and Marylin Emma Margaret Lyett, 11, Princess Margaret's godchild.

Los Angeles, Nov. 14 (UP)—Political observers today foresaw a race for the White House between James (Jimmy) Roosevelt and Franklin D. Roosevelt Jr., sons of the late president.

The 42-year-old Jimmy is expected to toss his hat into the ring for the California governorship tomorrow night in a radio broadcast. "Franklin" started his political career last spring by being elected to congress from New York.

When his first wife, Ethel Du Pont, appeared in Nevada early last year for a divorce, Franklin's attorney cautioned newsmen to treat the story decorously for "it involves a future president of the United States."

But any questions to the Roosevelt brothers about their presidential ambitions are met with non-committal smiles.

Roosevelt, Democratic national committeeman from California, based his decision to enter the gubernatorial race on a tour of the state, during which he interviewed party officials.

Rumored as his opponent for the Democratic candidacy is Vice Chairman E. George Luker of the state Democratic central committee. Luker campaigned for President Truman in 1948, while Roosevelt went on the stump for Gen. Dwight D. Eisenhower until the general removed himself from the race.

Republican competition was expected from incumbent Earl Warren, Republican vice-presidential nominee in 1948. In 1946 he won both the Democratic and Republican nominations for governor.

Dr. Charles Welch, High Presbyterian Figure, Dies

Louisville, Ky., Nov. 14 (AP)—Dr. Charles W. Welch, 77, retired minister and former moderator of the Presbyterian church in the U.S.A., died in a hospital here yesterday.

Dr. Welch, in retirement since 1945, served 40 years in the ministry after first doing wooden mill and railroad work. He had been partially paralyzed since he suffered a stroke Sept. 2 in Michigan.

Funeral services will be held tomorrow afternoon at the Fourth avenue Presbyterian church here, which he served as pastor for 29 years.

Dr. Welch devoted much of his life's work to the promotion of better relations between whites and Negroes and between gentiles and Jews. He was strong advocate of merging the northern and southern branches of the Presbyterian church.

He was a native of White county, Tennessee, and early in his life lived on a farm near Franklin, Ky. He helped work his way through the Presbyterian Theological seminary in Chicago by reporting for the Chicago Tribune.

Prince Aly Says Divorce Rumors Are Unfounded

Lausanne, Switzerland, Nov. 14 (UP)—Prince Aly Khan said today that rumors he and Rita Hayworth are planning a divorce are preposterous.

The rumors began circulating here last week after Aly returned to the Riviera, leaving his actress wife here to await their baby.

Back from Cannes, Aly said today: "The most preposterous rumors (about a divorce) are circulating, and these are without any foundation whatsoever. The princess and I are quietly resting here in Lausanne, and all we wish is to be allowed to enjoy our rest."

Sources close to the couple said they told intimate friends at a party Saturday night that they expect their baby "sometime in November."

However, Aly refused to discuss the probable date of the child's birth. He said it made no difference to him whether it was a boy or a girl.

But if it is a girl, he said, "I hope she will look like Rita."

Rita has reserved a suite in the Montvithy Nursing home for the birth. The nursing home refuses to give the date of the reservation.

The Moslem prince and the American actress were married last May 27.

Arab Nations Say Peace Looks Dim

Washington, Nov. 14 (UP)—The seven Arab nations informed the United States today that prospects for peace in the Middle East are exceedingly dim because of Israel's actions.

The Arabs said Israel had consistently flouted United Nations resolutions on Arab-Israeli relations.

Seven top Arab envoys in this country delivered a note setting forth the Arab viewpoint to acting Secretary of State James E. Webb this morning.

Egyptian Ambassador Kamil Abdul Rahim said the envoys cited "on instructions of our governments and in execution of a decision taken by the Arab league in Cairo last month."

Addressing reporters as a spokesman of the Arab group, the ambassador said: "We know the U. S. government is as concerned about prospects of peace as we are and that's why we presented this note."

He said that the Arabs are willing and eager to cooperate with the United States and the UN in peace-making efforts in the Middle East, but added, "to our regret the other party (Israel) does not show the readiness and good-will up to now that we have shown."

"Instead all the world sees that they have flouted the United Nations. They have withdrawn their cooperation with the United Nations Palestine Conciliation commission."

"We see actually that prospects of peace have dimmed and that's why we presented our note."

Now They Even Wash
Your Spinach For You!

Twenty-five years have sure made a big difference in the way things are sold. Remember when you wanted cheese? The grocer whacked a hunk off a big "cartwheel" on the counter (and usually forgot to put the cheesecloth back over it to keep the flies off).

Today cheese comes vacuum-packed in glasses you can use afterwards. And coffee. Instead of out of a bin now you get it roasted fresh in a container—and don't even have to grind it!

Take the old-fashioned "for men only" corner saloon. Today taverns

selling beer and ale are "open to inspection" to everyone. That's because the tavern owners and Brewers have set up a Self-Regulation Program to see that their "product" is always sold in the right kind of "package."

From where I sit, that's an important part of the American way—keeping product and package right up to the minute so the seller and the public both benefit.

DOROTHY DIX Marriage vs. Bachelorhood

Dear Miss Dix: What inducements and advantages are there in married life compared with the bachelor state? I am a young man thinking of marriage, but my friends say, "Don't be crazy." They claim no girl is worth it. They believe in the love em - and leave 'em theory. How can I be reasonably sure that the girl I love now will prove to be the only one for me the rest of my life? I have known her five years and love her now more than I ever did.

Answer: The take 'em - and leave 'em theory that your bachelor friends advance never yet has made for happiness. What a man wants is not these light loves of a day or an hour. He wants the love that will endure forever.

Married men are healthier than single ones because they live a more ordered life. It is because they are not so free to roam around at night that they spend their evenings quietly at home, that they eat home cooking instead of restaurant food, and that their wives nag them about keeping their feet dry, that gives them length of days.

Marriage gives a man children, and that gives him an interest in life that nothing else does. He lives his life over again in his boys and

girls. Often he realizes his ambitions in them and he has a pride in their achievements that he has never felt in anything he has done himself.

Married men are, as a rule, more prosperous than bachelors because it is not until after a man is married that he really settles down to his job and puts his back and his heart in it. Nor do many men begin to save until after they get married.

If you have found a girl that you care for more after five years of acquaintanceship than you did at the beginning, I would say that she is a mighty safe bet, so go along and marry her.

Dear Miss Dix: Is it better to let your husband know that you are good and true to him and that he has nothing to worry over or is it better to keep him guessing and make him jealous? I love my husband dearly and want to keep him forever.

Answer: The techniques of courtship and marriage are entirely different. Before marriage a woman does well to disguise her feelings and not let a man feel too certain of her or know how much she cares for him, but after marriage a woman's strongest hold upon her husband is his certainty of her deep and abiding affection for him.

I can think of nothing that is more calculated to kill a man's love for his wife than to suspect her of having affairs with other men or of carrying on cheap flirtations. Nor can I think of anything that will do more to hold a man than his respect for her, his knowledge that she has rock-bottom principles that nothing can shake.

Don't make the mistake that so many women do in thinking that jealousy is the food of love. It is not. It is rank poison to it and it slays it quicker than anything else in the world. Faith and trust are essential to any real happiness in love.

Dear Miss Dix: The girl I am going with wants me to marry her and keep it a secret. I have nothing to marry on, but I love her.

Answer: Don't let any girl persuade you to marry her secretly. If you are going to marry her, be man enough to do it openly before the world. And don't marry until you are able to support your wife. It is selfish for a child to marry and expect its parents to assume the burden of supporting its husband or wife.

"I SHALL NOT WANT"

Bible-reading Mrs. Frances L. Worthington, 73, reportedly confessed to Berkeley, Calif., police that she is "one of the most accomplished pickpockets in the world." Her favorite Psalm, Mrs. Worthington said, goes, "The Lord is my Shepherd; I shall not want." She likes it because the words have come true for her so often during her 40 years as a pickpocket and shoplifter. "People just keep throwing temptation my way," explained Mrs. Worthington. The judge sentenced her to 60 days in the Alameda County jail.

Man to Trial for Slaying Wife and Child

Fairfax, Va., Nov. 14 — (UP)

Charles Holober, 41, balding midsize cult member, was to go on trial today charged with murdering his pregnant wife and infant daughter who was buried alive in a shallow grave beside the still-warm body of her bullet-ridden mother.

Police said the former Washington jewelry store clerk made a complete confession and re-enacted the crime after his arrest last Feb. 27.

Officers said Holober himself reported his 37-year-old wife and baby daughter, June, missing. He said his car became mired on a lonely road and when he returned to the car after searching for help his wife and baby were missing.

Boy scouts who joined the search found the bodies in a shallow grave in the woods near the mud trap. Holober attended a short distance from where he said his car was stuck.

Police said Mrs. Holober had been shot three times with a .32 caliber pistol. They said Holober, as saying he "lost his nerve" when he turned the gun on the baby and placed her alive into the shallow grave he had prepared for his wife.

Holober was arrested at his home in Washington and waived extradition. After his indictment last March 4, he was committed to Southwestern state hospital for observation.

Lewis Willing to Talk Next Week So He Says

New York, Nov. 11 — (AP) — John L. Lewis said today he was willing to renew mediation efforts in the coal dispute at a meeting next week with Cyrus S. Ching "or anybody else."

The United Mine Workers president announced his readiness to make another effort to settle the dispute at a press conference at his room in the Ritz-Carlton hotel here.

However, he did not hold out any olive branch to Ching, director of the federal mediation and conciliation service.

Instead, Lewis referred to "the Ching fiasco in Washington," his description of a meeting which the federal official sought to arrange yesterday in the capital.

Acheson Takes Offer to Germans

Paris, Nov. 11 — (UP) — Secretary of State Dean Acheson left for Germany today to offer leadership of the West German republic a formula for resuming their place in the family of Western nations.

Acheson carried with him new concessions for Germany which were reached here at a two-day conference with Foreign Secretary Ernest Bevin of Britain and Foreign Minister Robert Schuman of France. The conference ended just before dawn today.

Acheson also was armed with a warning from the Western Big Three, aimed primarily at Russia, that "fairness and humanity" would be used to prevent another world war and to preserve the peace and security of Europe and the world.

The three-power decision was to remain secret until Acheson and the three high commissioners for Western Germany had discussed them with Chancellor Konrad Adenauer. But the decisions included a compromise plan for partially abolishing the program to send representatives abroad, and promises of closer integration of Germany with Western Europe.

Although the ministers conferred until nearly dawn, they were up early on the 31st anniversary of the First World War armistice.

Acheson and Bevin conferred before Bevin left by train for London. Acheson then laid a wreath on the tomb of the French unknown soldier at the Arc de Triomphe before lunching with Premier Georges Bidault.

Schuman left Paris to deliver an armistice day speech at Saarbrücken.

Agrees Navy Regulations Violated

Washington, Nov. 14 — (UP) — Capt. John G. Crommelin agreed today with a radio commentator's statement that navy regulations were violated when he was publicly reprimanded for his part in the unification row.

Walter Winchell said in his regular Sunday night commentary over the American Broadcasting company network that Adm. Forrest P. Sherman, new chief of naval operations, broke Articles 23, 24, and 25 of the "naval courts and boards" when he publicly dressed down Crommelin. Winchell said these articles provide only for a private reprimand.

When questioned about the Winchell broadcast, Crommelin said: "My attorneys and I agree with him (Winchell)."

He added that under navy regulations on general court martial procedure, "the sentence of public reprimand while legal, is not complied with favor by the department." Crommelin was not court-martialed.

The captain is now preparing an official reply to the reprimand, which questioned his "fitness for command." It was considered probable that the veteran naval officer's reply would emphasize the

alleged breach of navy regulations. In his letter of reprimand, Sherman told Crommelin that he had violated regulations in making public letters which had been classified "confidential." Publication of the letters hastened the recent unification hearings before the house armed services committee.

Turkey Day to Be Less Costly

By United Press
Pop can sit down and enjoy his Thanksgiving feast this year with the knowledge that it's costing him considerably less than in recent years.

A United Press survey showed today that the cost of a Thanksgiving dinner for four, including a 10-pound turkey, will be almost \$1.50 cheaper than last year. Prices in 10 large cities were checked against last year's prices in the survey.

Such a meal last year cost \$2.97, the survey showed. This year he can be grateful on Thanksgiving day for only having to shell out \$1.46 to provide the traditional meal for the wife and kids.

In the survey, prices were checked for this year against 1948 on ingredients for a menu consisting of a 10-pound turkey, two pounds of sweet potatoes, a can of cranberries, two bunches of celery, a can of asparagus, a loaf of white bread, a pound of assorted nuts, a pound of table grapes and a can of pumpkin pie. The prices compared as follows:

Turkey, grade A hen, lb., 1949, 63.3; 1948, 75.1; Sweet potatoes, lb., 1949, 9.7; 1948, 10.8; cranberries can, 1949, 16.4; 1948, 18.4; celery bunch, 1949, 16.6; 1948, 9.7; asparagus can, 1949, 37.9; 1948, 38.1; sliced white bread, loaf 1949, 14.1; 1948, 14.7; assorted nuts, lb., 1949, 35.7; 1948, 45.8; table grapes, lb., 1949, 12.6; 1948, 13.7; pumpkin, can., 1949, 13.2; 1948, 12.8.

General interest in the U. N. has been picking up, after suffering a heavy slump as the result of the constant East-West wrangling and the persistent use of the veto by the Soviet Union. The Washington government, among others, has given increasing support to the organization.

A concrete illustration of real progress is seen in the manner in which the U. N. political committee has handled the troublesome question of Italy's prewar African colonies — Somaliland, Eritrea and Libya. The committee approved a proposal to send Italy back as trustee of Somaliland for ten years, after which the colony will become independent. Russia and her satellites abstained from voting, being in the minority.

This has been achieved despite the fact that Libya has presented a particularly controversial problem. Moscow charges that America and Britain are planning to make this Mediterranean country a base for attack against the Soviet Union — a charge which the Anglo-American allies deny. Russia herself has sought a base on the north African coast, and Libya does have great strategic value in event of war.

Unhappy the big problem of the day — atomic control — hasn't been susceptible to solution. That comes within the "nuclear" zone, and is static so far as Moscow is concerned.

Still, despite the great division between East and West in the proceedings of the U. N., there are some valuable contacts between members of the two blocs. For example, the way was cleared for the lifting of the Soviet blockade of Western Berlin by discussions between Dr. Philip Jessup, American delegate to the U. N. security council, and Jacob A. Malik, Russian U. N. delegate.

Said the U. N. continues to grind out a grist which is far more useful than can be indicated by the illustrations in this brief article. And if peace enthusiasts are disappointed at the size of the grist, still any grist at all probably should be called a good grist.

Richmond, Nov. 14 — (UP) — Band leader Jimmy Dorsey, brother of Trombonist-Bandleader Tommy Dorsey, today won a two-week continuance of his trial on charges of bopping a Richmond milkman on the head with a clarinet.

Dorsey's attorney, Clayton D. Hollinger, telephoned police court Judge Carlton E. Jewett just before Dorsey's case was to be called at 9:45 a. m. Hollinger said because of "contract obligations" an engagement tonight in Harlem, N. C. — Dorsey would be unable to appear in court.

Jewett set the case for Nov. 28. Milkman William G. Thoney, 22, claimed the famous saxophonist clipped him with the clarinet when he asked him if he were Tommy Dorsey's brother.

Thoney, tall, thin and wearing his dark hair slicked back, was present for the hearing. But except to say the whole matter was "very embarrassing," he refused comment.

UN Slowly Making Progress After Living Down the Handicap of 'Utopia' Title

By DeWitt MacKenzie
AP Foreign Affairs Analyst

Our hard-working but veto-harassed peace organization, having found it impossible to live up to its utopian designation of "United Nations," is nevertheless making progress by the simple expedient of living down the title.

If that sounds complicated we can simplify it by explaining that the Western nations, having found that they couldn't cope with the Soviet bloc's persistent "nyet" (no), are getting ahead by tackling jobs to which the veto doesn't apply. In this way useful tasks are being accomplished despite the protests of the Soviet nations, which are in the minority.

This is of course far from being an ideal situation in a world which is crying out for unity. Still, if the Western democracies and the communist bloc can't work together it certainly is better for the majority to get ahead with the job on their own.

General interest in the U. N. has been picking up, after suffering a heavy slump as the result of the constant East-West wrangling and the persistent use of the veto by the Soviet Union. The Washington government, among others, has given increasing support to the organization.

The turning question: Will the sun cooperate?

It did in 1949. It was the sun, niles summer for years.

Mrs. Sylvia Bassam, 30, pretty Canadian-born secretary of the BSBA, says the association is campaigning for three things:

1. The legal right to bathe in the nude on approved public beaches;

2. More young women nudists;

3. To teach skeptics that "nudism" is "a healthy, wholesome way of life followed by intelligent people."

A little moist soap applied to the end of a screw will make it drive easier into the hardest of woods.

Rumors Live

in the Street

The Angry Swedes

A rumor is a story that lives in the street because it has no home to go to. That is, no one will guarantee any part of it is true. One of the oldest rumors around any town is that such-and-such an industry wanted to come here but folks "wouldn't let it." I hear this particular story revived about Hope on the occasion of Prescott getting a huge paper mill.

As the story goes, Hope was offered a big paper mill some time ago but "wasn't interested". The facts, however, are:

Before the war there was a general report that a paper mill location was sought somewhere in Southwest Arkansas. My recollection is that the matter was discussed in Hope business circles. My further recollection is that, knowing a paper mill has to have vast quantities of water, a location was suggested on Red River near Fulton. But filtering out the silt from that loaded stream was too much of a problem. A more favorable location was considered west of McNab on Little river, a clear-water stream—but timber is largely cut out in that area.

Nothing came of the suggested Hempstead county site, and now we have the accomplished fact of a paper mill in Nevada county. Well, Hope itself never had a chance, for we have no important water supply in our immediate neighborhood. And the Nevada county location wasn't made at Prescott, for the same reason, but miles east, near Little Missouri river.

I don't see how Hope has come out very badly in this development. After Prescott the nearest town to the Nevada county mill location is Gordon at 15 miles. Next is Hope at 21 miles and then there is Arkadelphia at 23 miles. Had we actually located a mill near McNab the traffic from that mill would have had to pass through Fulton and Fulton is only 18 miles from Prescott compared to 15 miles from Hope.

What do you think?

The Swedes are not only independent but they have an eloquent gift for making everybody mad.

When Senator Elmer Thomas of Oklahoma criticized Sweden this week for not paying enough attention to congressional touring committee the Swedes pressed back with this fighting language:

"The United States Senate... is a dumping place for... the most ignorant, country politicians from the darkest corners of the union. And it must be pretty dark in Oklahoma."

That's it. Next thing you know Oklahoma will send its football team overseas and there'll be a great scattering of Swedes.

Europe Must Drop Prices Says Truman

Washington, Nov. 15 (AP)—President Truman today sent to Congress a Marshall plan report declaring that Europe must lower its prices to compete in the United States market for the American consumer's dollar.

"The United States, of course, must be willing to accept greater competition from European exporters in order to help Europe pay its way," said the study prepared by the economic cooperation administration.

Even if European sales in the United States were doubled, the share of this market—the volume would represent less than one per cent of this country's total output and would be only scratching the surface of the American market," Congress was told.

"The participating countries must intensify their export drive to the dollar areas if they are to attain independence from extraordinary outside assistance," the report went on.

"This will require on the part of many European businessmen a reorganization of factory methods, installation of new and more efficient machinery in order to reduce costs, greater attention to merchandising and advertising, redesigning of products and packaging to suit American preferences and a determination to serve American customers with the care and attention they receive from American producers."

It also will be necessary, the report said, for the Marshall plan countries to give their exporters incentives to enter the tough American market. This will be done as ECA Administrator Paul G. Hoffman has suggested, by letting the exporting companies keep a share of the dollars earned in export trade.

Violence Takes Lives of 7 in Arkansas

By The Associated Press

Seven persons have died violently in Arkansas so far this week. One of the victims, L. B. Watson, 42, of Texarkana was killed while on a deer hunt Monday near Mena Ark. He was shot by a fellow hunter who mistook him for a deer and fired.

Seven-year-old Bobby Wayne Hughes was crushed fatally beneath the wheels of a tractor at his farm home near Lake Village Monday. He toppled from the driver's seat beneath the vehicle's wheels.

Roger Sager, 16, of Gillett was killed when thrown through the windshield of a car from the impact of a truck auto collision. The accident occurred about 15 miles southwest of DeWitt Monday.

Assassins of Gandhi Are Put to Death

Amhala, India, Nov. 15 (AP)

The young editor who assassinated Mohandas K. Gandhi and the man who told him to do it were sprung simultaneously through a gallows trap at the Amhala central jail this morning. Their bodies were cremated immediately afterward.

Narayan V. Godse and Narayan B. Apte, two Hindu nationalists, walked to their death with smiles on their faces. Their foreheads were painted with sacred marks. Each man carried a small package, presumably of Hindu scriptures, which they were allowed to hold as their hands were tied behind them.

A moment before the trap was sprung the two young fanatics shouted in unison "may the united India be immortal. We salute the holy motherland."

There were the nationalist slogans that had inflamed them to take the life of the sainted Hindu spiritual leader who hated violence so much he tried to end Moslem-Hindu strife.

A witness to the execution, which ended a two-year legal battle following Gandhi's assassination in New Delhi last Jan. 30, 1948, said the two men thanked their jailors for their kindness and asked that they "finish the business quickly."

Godse, the 28-year-old editor of the Poona Daily, had fired the shot that killed Gandhi as he walked to prayer in front of hundreds of his followers. Apte, the publisher of the newspaper, was executed for leading the plot. Four other men received sentences of life imprisonment for participation in the plot while a fifth was acquitted.

Hours after the hanging officials still refused publicly to confirm or deny that the execution had taken place. To avoid demonstrations and possible violence even the closest relatives were not told.

A strict cordon had been placed around the prison all night and until after the execution. Police feared there might be violence among some 17,000 nearby Hindu and Sikh refugees, many of them sympathetic to the anti-Moslem Godse.

Police held two men — apparently friends of Godse's — who attempted during the night to scale the 20-foot walls of the jail. Otherwise no disturbances were reported.

The note was delivered to the representatives in Washington of Russia, Bulgaria, Czechoslovakia, Hungary, Romania, and Yugoslavia.

The Soviet Ukraine republic also signed the November 11 agreement, but is not represented here.

Parallel notes are being delivered by France and the United Kingdom, the state department announced.

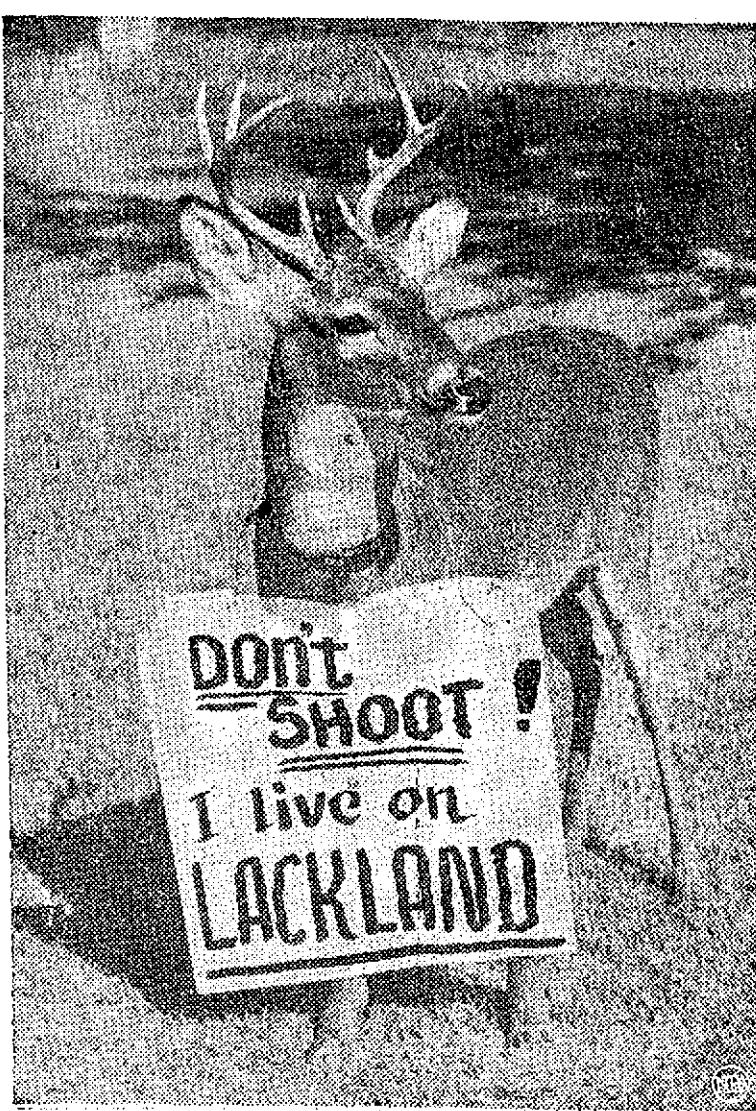

The new action is an outgrowth of the 1943 international meeting at Belgrade where Russia and the Soviet bloc took control and wrote a new treaty for control of the Danube over the protests of the United States, France, Britain and Austria.

On the Soviet-run control group neither Austria nor Germany is represented although they were the most important belligerent states before World War II.

The effect of the new action, officials said, is to perpetuate the division of the Danube which is one of Europe's principal waterways.

U. S. Considers Soviet River Bloc Invalid

Washington, Nov. 15 (AP)

The United States served notice on Russia and five Soviet bloc states today that it considers invalid their new commission to control shipping on the Danube river.

The commission was set up Nov. 11 at Galatz, Romania. It replaced a control commission dating back to 1921 on which five Western nations were represented.

An American note today said that the new arrangement, coupled with shipping companies on the river, is "clearly designed to enable the Soviet union to maintain a monopoly of Danubian commerce."

The Soviet bloc commission it was charged, violates the peace treaties signed with Bulgaria, Hungary and Romania and "violates the concept of international waterways which has been recognized in Europe for more than 130 years."

The note was delivered to the representatives in Washington of Russia, Bulgaria, Czechoslovakia, Hungary, Romania, and Yugoslavia.

The Soviet Ukraine republic also signed the November 11 agreement, but is not represented here.

Parallel notes are being delivered by France and the United Kingdom, the state department announced.

Agree to Let Plants Alone in Germany

Frankfurt, Germany, Nov. 15 (AP)

West German Chancellor Konrad Adenauer announced today that Britain France and the United States have agreed to slow down the dismantling of German industries.

His announcement came as he began negotiations with the Western high commissioners in the hope of relaxing occupation restrictions on Germany.

American, British and French high commissioners were expected to tell Adenauer of some of the decisions affecting Germany reached last week at the meeting of Big Three foreign ministers in Paris.

West Germans are pressing strongly for an end to the dismantling of industrial plants.

Adenauer had offered to allow Allied nations to buy into the Big Three industrial plants as a safeguard against rearmament, providing dismantling was stopped.

Adenauer is seeking real concessions for his West German government for two principal reasons:

1. Relaxation of dismantling and other occupation controls would offset communist propaganda boasting about creation of an East German state.

2. His Christian Democratic party, backbone of the West German government, faces a tough fight in parliament against attacks by opposition socialists and communists.

A debate on foreign affairs is scheduled later today. The debate was called at the urging of Dr. Kurt Schumacher socialist leader, who has said Adenauer has not gone far enough in persuading the Western Allies to loosen the occupation grip of Germany.

Acheson to Try to Gain Release of U. S. Envoy

Washington, Nov. 15 (AP)

Secretary of State Acheson returns from Europe today to face a problem that has some of his top men boiling mad and at their wit's end.

The problem: How to free American consul Angus Ward and four of his staff from a Chinese communist jail, presumably at Mukden in Manchuria.

Privately, aides of Acheson say the imprisonment of Ward is "barbaric" and they are irked beyond question at the Chinese communists. They are irked, however, at the point of acting on informal suggestions that the U. S. take a big stick to the communists in the form of military force or threat of force.

Ward's captivity has stretched out to three weeks, and the Chinese communists a utility has made it plain they are in no hurry to do anything about it. They have withheld all information about the health, treatment or trial date of the group, who are charged with beating a Chinese employee of the U. S. consulate at Mukden.

About all the state department knows about the charges is what has been heard on the communist radio. Telegrams sent by other members of the consulate staff have been intercepted. There has been on reply to a letter "requesting appropriate action," sent November 3 by Consul General O. Edmund Clubb, at Peiping the communist capital.

What to do next except wait and see has the state department stumped at the moment. The United States eventually may be in a position to bring political and economic pressure, directly and through the United Nations, but right now the new Russian-supported Peiping regime is in a nose-thumbing mood toward the West.

Under somewhat similar circumstances the United States used the threat of force to bring about the release of an American civilian who was captured by a Moroccan bandit 45 years ago.

Meanwhile, the 380,000 miners who were on strike for 52 days continue digging coal. But Lewis has threatened to take them out of the pits on Dec. 1 if a settlement is not reached.

In Washington directors of the Southern Coal Producers' association scheduled a meeting to discuss the demands to be made on Lewis to tighten up expenditures from the welfare and pension fund. The operators, who contribute 20 cents a ton royalty to finance the \$100,000,000 fund, want to have more to say about how the funds are spent.

Murray Rules on Liquor Possession

Little Rock—Beer and whiskey may be legally possessed in a "dry" county up to the total of the amounts allowed for each class of beverage, Attorney General Ike Murray ruled Monday.

An opinion by Chief Assistant John Williams said up to three gallons of beer may be transported into a dry county and a maximum of one gallon of liquor or wine may, at the same time, legally be in the possession of a dry county resident.

Previous statutes prohibited possession of a quantity of beer and or wine totalling more than one gallon, the opinion said.

The opinion sent to Deputy Prosecutor Royce Weisenberger of Hope.

Labor Dispute May Tie Up Coastal Shipping

By The Associated Press

A labor dispute threatened today to tie up some 500 passenger and dry cargo vessels on Atlantic and Gulf coast ports and make idle about 25,000 ship crew members.

A strike was set for midnight tonight by some 2000 members of an AFL deck officers union in a dispute with ship operators. The major issue was rotating jobs.

Government mediators made last minute efforts to avert the threatened walkout of the AFL masters, mates and pilots union. The strike would not halt movement of oil tankers and coal carrying vessels.

As the maritime strike threatened, there appeared little progress in the nation's coal dispute. But the steel industry was gradually returning to normal production as additional companies signed strike-ending contracts.

The government marked time in the coal dispute. But there were hints it was ready to make some move in an attempt to effect a settlement between the soft coal operators and John L. Lewis.

However, the contract talks remained deadlocked as the operators appeared cool to Lewis' invitation to resume talks. Government action may be appointment of a fact-finding board by President Truman with authority to recommend a settlement of the six months old dispute.

Meanwhile, the 380,000 miners who were on strike for 52 days continue digging coal. But Lewis has threatened to take them out of the pits on Dec. 1 if a settlement is not reached.

In Washington directors of the Southern Coal Producers' association scheduled a meeting to discuss the demands to be made on Lewis to tighten up expenditures from the welfare and pension fund. Yerger Sends Group to Rosston Meet

The Yerger chapter of N. F. A. sent several members to represent the chapter at the first meeting of the Peach Blossom Federation which was held at the Nevada county Training School, Rosston, today, with L. R. Gaines, state advisor presiding.

The major issue of this meeting — one in which the Yerger chapter is extremely interested is the election of officers for the ensuing year.

The group composed of John Straughter, Frederic Newton, B. C. Allen, Sheward Williamson and W. D. McFadden was accompanied by W. E. Miller, vocational agriculture instructor, Yerger High school.

Air Scouts will meet tonight at 7 o'clock at the Hope Youth center. All members are urged to be present.

Washington, Nov. 15 (AP)—John L. Lewis was confronted today with a virtual ultimatum to win a quick coal peace or face fast White House action.

The mediation service said Lewis is being given 24 to 48 hours to get something stirring toward a coal contract. It implied that there would be action by President Truman this week if Lewis does not.

Officials seemed to believe Mr. Truman would invoke the Taft-Hartley act although the President dislikes that law.

Use of a special fact-finding board outside Taft-Hartley law was done in the steel dispute, has been considered but that idea appeared to have little support.

The White House evidently was determined to stop a new strike on Dec. 1, the expiration date of a truce ordered by Lewis last week to end a 52-day strike.

Under Taft-Hartley, Mr. Truman could order the justice department to seek a court injunction barring a new strike for 90 days.

A top White House adviser said the question of a special board outside the Taft-Hartley law still is being considered but would not be used unless Lewis would agree to keep his miners at work for 90 days.

This official summed up President Truman's attitude in these words: "A decision on what to do in the coal situation has not been made."

"Cousidation is now being given to offering Lewis and the coal industry a fact-finding board such as was set up in the steel strike. Such a board, however, would be set up only with the understanding that the coal miners remain at work during the deliberations of that board."

"If Lewis refused to keep the men at work, then the President will act under the emergency provisions of the Taft-Hartley act."

"Some of the White House officials feel that Lewis would not agree to calling off the strike under such conditions or to a board having authority to make recommendations."

"The case of the Taft-Hartley act is the only legal weapon available should invoke the Taft-Hartley act as the immediate step if the coal miners and the industry don't reach a settlement very soon."

"The case of the Taft-Hartley act is the only legal weapon available should invoke the Taft-Hartley act as the immediate step if the coal miners and the industry don't reach a settlement very soon."

"However, to be consistent out some of the President's advisers feel that he should make the same offer as was made in steel. A fact-finding board conditioned upon a truce. This offer, if accepted, would call for a truce of at least 90 days."

Lewis Willing to Talk Next Week So He Says

New York, Nov. 11 — (P) — John L. Lewis said today he was willing to renew mediation efforts in the coal dispute at a meeting next week with Cyrus S. Ching "or anybody else."

The United Mine Workers president announced his readiness to make another effort to settle the dispute at a press conference at his room in the Ritz-Carlton hotel here.

However, he did not hold out any olive branch to Ching, director of the federal mediation and conciliation service.

Instead, Lewis referred to "the Ching fiasco in Washington," his description of a meeting which the federal official sought to arrange yesterday in the capital.

Acheson Takes Offer to Germans

Paris, Nov. 11 — (UP) — Secretary of State Dean Acheson left for Germany today to offer leaders of the West German republic a formula for resuming their place in the family of Western nations.

Acheson carried with him new concessions for Germany which were reached here at a two-day conference with Foreign Secretary Ernest Bevin of Britain and Foreign Minister Robert Schuman of France. The conference ended just before dawn today.

Acheson also was armed with a warning from the Western Big Three, "firmness and humanity" would be used to prevent another world war and to preserve the peace and security of Europe and the world.

The three-power decision were to remain secret until Acheson and the three high commissioners for Western Germany had discussed them with Chancellor Konrad Adenauer. But the decisions included a compromise plan for partially abolishing the program to send representatives abroad, and promises of closer integration of Germany with Western Europe.

Although the ministers conferred until nearly dawn, they were up early on the 31st anniversary of the First World War armistice.

Acheson and Bevin conferred before Bevin left by train for London. Acheson then laid a wreath on the tomb of the French unknown soldier at the Arc de Triomphe before lunching with Premier Georges Bidault.

Schuman left Paris to deliver an armistice day speech at Saarbrücken.

Agrees Navy Regulations Violated

Washington, Nov. 14 — (UP) — Capt. John G. Crommelin agreed today with a radio commentator's statement that navy regulations were violated when he was publicly reprimanded for his part in the unification row.

Walter Winchell said in his regular Sunday night commentary over the American Broadcasting company network that Adm. Forrest P. Sherman, new chief of naval operations, broke Articles 23, 24, and 25 of the "naval courts and boards" when he publicly dressed down Crommelin. Winchell said these articles provide only for a private reprimand.

When questioned about the Winchell broadcast, Crommelin said: "My attorneys and I agree with him (Winchell)."

He added that under navy regulations on general court martial procedure, "the sentence of public reprimand, while legal, is not regarded with favor by the department." Crommelin was not court-martialed.

The captain is now preparing an official reply to the reprimand, which questioned his "fitness for command." It was considered probable that the veteran naval officer's reply would emphasize the

Turkey Day to Be Less Costly

By United Press
Pop can sit down and enjoy his Thanksgiving feast this year with the knowledge that it's costing him considerably less than in recent years.

A United Press survey showed today that the cost of a Thanksgiving dinner for four, including a 10-pound turkey, will be almost \$1.50 cheaper than last year. Prices in 10 large cities were checked against last year's prices in the survey.

Such a meal last year cost \$2.97, the survey showed. This year he can be grateful on Thanksgiving day for only having to shell out \$1.46 to provide the traditional meal for the wife and kids.

In the survey, prices were checked for this year against 1948 on ingredients for a menu consisting of a 10-pound turkey, two pounds of sweet potatoes, a can of cranberries, two bunches of celery, a can of asparagus, a loaf of white bread, a pound of assorted nuts, a pound of table grapes and a can of pumpkin pie. The prices compared as follows:

Turkey, grade A hen, lb., 1949, 62¢, 1948, 75¢; Sweet potatoes, lb., 1949, 9¢, 1948, 10¢; Cranberries, can, 1949, 18¢, 1948, 19¢; Celery, bunch, 1949, 16¢, 1948, 17¢; Asparagus, can, 1949, 37¢, 1948, 38¢; Sliced white bread, loaf 1949, 14¢, 1948, 14¢; Assorted nuts, lb., 1949, 35¢, 1948, 38¢; Table grapes, lb., 1949, 12¢, 1948, 13¢; Pumpkin, can., 1949, 13¢, 1948, 12¢.

alleged breach of navy regulations. In his letter of reprimand, Sherman told Crommelin that he had violated regulations in making public letters which had been classified "confidential." Publication of the letters hastened the recent unification hearings before the house armed services committee.

Dorsey Wins Delay in Assault Trial

Richmond, Nov. 14 — (UP) — Bandleader Jimmy Dorsey, brother of Trombonist-Bandleader Tommy Dorsey, today won a two-week continuance of his trial on charges of bopping a Richmond milkman on the head with a clarinet.

Dorsey's attorney, Clayton D. Hollinger, telephoned police court Judge Carlton E. Jewett just before Dorsey's case was to be called down at 9:45 a. m. Hollinger said because of "contract obligations" an engagement tonight in Hamlet, N. C. — Dorsey would be unable to appear in court.

Jewett set the case for Nov. 28. Milkman William G. Thoney, 22, claimed the famous saxophonist clipped him with the clarinet when he asked him if he were Tommy Dorsey's brother.

Thoney, tall, thin and wearing his dark hair slicked back, was present for the hearing. But ex-Milkman, Russian U. N. delegate, "very embarrassing," he refused comment.

UN Slowly Making Progress After Living Down the Handicap of 'Utopia' Title

By DeWitt MacKenzie
AP Foreign Affairs Analyst

Our hard-working but veto-harassed peace organization, having found it impossible to live up to its utopian designation of "United Nations," is nevertheless making progress by the simple expedient of living down the title.

If that sounds complicated we can simplify it by explaining that the Western nations, having found that they couldn't cope with the Soviet bloc's persistent "nyet" (no), are getting ahead by tackling jobs to which the veto doesn't apply. In this way useful tasks are being accomplished despite the protests of the Soviet nations, which are in the minority.

This is of course far from being an ideal situation in a world which is crying out for unity. Still, if the Western democracies and the communist bloc can't work together it certainly is better for the majority to get ahead with the job on their own.

General interest in the U. N. has been picking up, after suffering a heavy slump as the result of the constant East-West wrangling and the persistent use of the veto by the Soviet Union. The Washington government, among others, has given increasing support to the organization.

A concrete illustration of real progress is seen in the manner in which the U. N. political committee has handled the troublesome question of Italy's prewar African colonies — Somaliland, Eritrea and Libia. The committee approved a proposal to send Italy back as trustee of Somaliland for ten years, after which the colony will become independent. Russia and her satellites abstained from voting, being in the minority.

The committee also has agreed that Libia shall become independent not later than Jan. 1, 1952. Eritrea is still under discussion.

This has been achieved despite the fact that Libia has presented a particularly controversial problem. Moscow charges that America and Britain are planning to make this Mediterranean country a base for attack against the Soviet Union — a charge which the Anglo-American allies deny. Russia herself has sought a base on the north African coast, and Libia does have great strategic value in event of war.

Unhappily the big problem of the day — atomic control — hasn't been susceptible to solution. That comes within the "nyet" zone, and is static so far as Moscow is concerned.

Still, despite the great division between East and West in the proceedings of the U. N., there are some valuable contacts between members of the two blocs. For example, the way was cleared for the lifting of the Soviet blockade of Western Berlin by discussions between Dr. Philip Jessup, American delegate to the U. N. security council, and Jacob A. Malik, Russian U. N. delegate.

So the U. N. continues to grind out a grist which is far more use-

Nudism Is Flourishing in Britain

By ARTHUR W. WHITE

London, Nov. 12 — (P) — Nudism is booming in Britain. More people are walking around naked than ever before.

Not in public, of course—the law frowns on that—but is flourishing "naturist" camps scattered throughout the country.

Leaders of the open-air cult say happily they've never seen anything like it.

Britain's few hundred timid pre-war nudists have grown into a lusty movement 50,000 strong. In 1938 there were 10 nudist clubs. Now there are 60. Many non-club "naturists" enjoy life in the raw in the privacy of their own homes and gardens.

The British Sun-Bathing association (BSBA), biggest nudist group — has just voted to incorporate nudism. It's forming a limited company of 200 shareholders.

Right now the clammy British winter has driven all except the hardiest "naturists" into long underwear. But the BSBA hopes next summer will be the best ever for the one out of every 1,000 Britons it says likes to frolic naked in the sun.

The burning question: Will the sun cooperate?

It did in 1949. It was the sunniest summer for 16 years.

Mrs. Sylvia Bassam, 30, pretty Canadian-born secretary of the BSBA, says the association is campaigning for three things:

1. The legal right to bathe in the nude on approved public beaches;

2. More young women nudists;

3. To teach spectacles that "naturism" is "a healthy, wholesome way of life followed by intelligent people."

A little moist soap applied to the end of a screw will make it drive easier into the hardest of woods.

ful than can be indicated by the illustrations in this brief article. And if peace enthusiasts are disappointed at the size of the grist, still any grist at all probably should be called a good grist.
